

HIGHLIGHTS

Royal Brunei Armed Forces (RBAF) DEFEXPO 2024: *Innovating Defence Solutions*

Organised by the Ministry of Defence Brunei Darussalam and Brunei Engineering, Logistics and Training Solutions (BELTS), the expo provided us with the opportunity to showcase our expertise in system integration, advanced robotics, automation technologies and specialised vehicles, tailored for the defence and homeland security sectors across the globe.

Guest of Honour His Majesty Sultan Hassanal Bolkiah and senior officials from the Ministry of Defence and RBAF being introduced to our robotic and automation innovations and their potential applications in the defence sector.

Exploring the Future: Robotics and Smart Technologies

A team from JTC visited HOPE Technik to explore our robotics capabilities across various sectors and industries. Representatives from both organisations engaged in discussions about challenges in the built environment, facilities management, and smart city technologies. We also had the opportunity to showcase our capabilities and successful track records in these areas. Looking forward to future collaborations!

Empowering Tomorrow's Innovators

HOPE Technik is proud to be one of the sponsors of the recent InnovaTE event organised by ITE College Central.

Industry leaders were brought together to share recent technology and innovations in Sustainable Technologies, Urban Solutions, Semiconductor Packaging and Advanced Manufacturing.

Additionally, our very own Executive Director, Michael Leong, was one of the featured speakers of the event. He took the stage to share his insights on how to effectively adopt engineering standards such as ISO, IEC, and ASTM into the innovation and development process.

Bridging Gaps in Medical Support

A special shout out to the medical support vehicle project team! Your collective efforts are driving us closer to transforming emergency healthcare, making it more accessible and efficient for communities in need. Let's continue to push forward to help pave the way for a healthier, safer Singapore!

Eighteen Years Strong: HOPE Technik's Milestone Celebration

A toast to the future and achievements!
